About

A passionate and versatile developer with a strong foundation in web development, UI/UX design, and programming. Proficient in Python, Java, React.js, Django, and familiar with modern tools and frameworks. Adept at building efficient, user-centric applications and solutions. With a keen interest in exploring the intersection of technology and creativity, I strive to deliver impactful designs and seamless user experiences. Always eager to learn and stay updated with the latest in the tech world.

Projects

Klan

Django, Python, SQLite

Student interactive platform

Github

- Collaboratively developed a doubt resolution app with a team of four to enhance student interaction.
- Led front-end development, creating an intuitive user interface using HTML, CSS, JavaScript.
- Employed Python and SQLite for efficient data management in a Django-based application

Socio

Django, SQLite

Social Media platform

Github

- Contributed to both front-end and back-end development, implementing key features such as messaging, friend lists, and friend requests.
- Utilized SQLite for data handling, ensuring seamless user interaction and data storage.

Technical Skills

Strongest Areas
